NEWS of WORLD MARKETS

INDUSTRIALS AGAIN **FOREMOST IN STOCKS**

New York. May 2.—Industrials were again the foremost issues at the opening of today's stock market. United States Steel advanced a large fraction to 97%, its maximum for the current movement, while Republic Iron and Superior Steel rose 1½ and 2 points, respectively. Royal Dutch Oil rallied from its recent depression, gaining 1½. Rails, aside from Canadian Pacific, failed to sustain their strength of the previous session. Liberty bonds eased slightly.

Dealings diminished visibly during the noon hour, but the duliness was without adverse effect upon prices. United States Steel made a new high quotation for the current movement at 98, and rails, especially Pacifics and coalers, showed extreme gains of 1 to 3 points.

BOYS TO BE INDUCTED SPRING OF YOUTH IS DISCOVERED

This Priceless Jewel Found by Richard Richardson Since Marrying—Now in Jail.

There is a citizen of Hamilton county, however, his present habit is the Hamilton county jail, who has found in married life the spring of perpetual youth. The name of the young man, who holds this priceless secret is Richard Richardson and the man who discovered the man who holds this secret is Constable Frank Hendricks. According to the marriage license book for 1917 in the county court clerk's office. Richardson was married Aug. 12, 1917, to Miss Ivy McClendon and he gave his age as 22 years and his bride as 20 years.

Wednesday afternoon Constable Hendricks received a call in South hattanooga to a home where it was claimed by neighbors that a man was whipping his wife and attempting to cut her throat, but outside of that was living strictly up to the marriage vows to protect and keen her in sick-ness and in health. The officer hur-ried to the scene and there he found Richardson attempting to carry out plans that would shortly make him a

He was taken to the jail and locked up on the charges of assembly and butknife. Constable Hendricks then be gan an investigation, and after equalities the marriage license book stiting the marriage license book of 1917, together with a News reporter, learned that Richardson, when married in that year, gave his age as 22 years. To the charges already against him there was a further charge of being a slacker added to the others.

Richardson will be given a hearing efore Squire Street at which time constable Hendricks states that for he benefit himself and of his married friends he will attempt to discove his spring of perpetual vouth makes a man grow younger after h is married, rather than erow rapidly

ASKS FREE HAND IN FORMING ARMY

Baker Urges Unlimited Power Granted by Congress for Prosecution of War.

(Associated Press.) Washington, May 2.—Secretary Baker, at a hea ing today before the house military affairs commit-tee in confidential session, asked that congress grant unlimited power for the creation of an army of whatever size necessary for of whatever size necessary the prosecution of the war. told t' committee that it would be ill-advised to restrict the number of men to be utilized and that the size of the army should be in-creased in the discretion of the government as transportation and

equipment facilities warranted. Secretary Baker indicated that he would submit a proposed measure, probably as an amendment to the draft law, to grant the unlimited authority asked. Under the existing draft law, as construed by Chairman Dent, of the military committee, and others, there is authority for use of only 1,000,000 men under draft. Mr. Dent yesterday introduced a bill to authorize a draft army of 4,000,000 men, which with volunteers already in the service would make an ultimate possible maximum strength of 5,000,000 men.

No Decision as to Age. Secretary Baker was questioned by the committee regarding his views as to increasing the draft age. He said he was studying the subject and had

made no decision. The house military committee will immediately resume consideration of the annual army appropriation bill and Secretary Baker's idea is that it shall provide only for the number imme-diately foreseen. Indications are that it will carry provision for equipment, transportation, pay and other expenses of approximately 3,000,000 men as part, not of a specific program, but as a fur-therance of a blanket authority plan involving use of all or part of the funds appropriated and supplemental appropriations later on as their need may become apparent.

Dictated Statement.

Secretary Baker, at the conclusion o hearing, dictated this statement: The war department program was presented to the house military committee this morning. It involved the expediting of the training of men and the increasing of the army as rapidly as ability equip and transport their can be foreseen. The secretary of war declined to discuss the numbers of the proposed army, for the double reason that any pecific number implies a limit and the only point limit is our ability to equip and transport men, which is con-

ctantly on the increase.

The details of the estimates proposed for the regular appropria-tion of 1918-19 will be gone into with the committee begining at 10 o'clock tomorrow morning. These estimates when approved by committee and acted upon ongress will be supplemented by subsequent appropriations as the facilities for transportation and the additional equipment increase. degarding the draft quota matter, there was a discussion. Secre-

tary Baker took the position that he desired to have sufficient quotas based on the number of nen in Class I without the credits. There was no change sug, sted as to the draft age limits.

COTTON LOSES 43 TO 55 CORN ON DOWN GRADE | POINTS IN EARLY TRADING

(Associated Press.)

New York, Ma y2.—Prospects for fair and warmer weather in the south served to restrict buying and promote realizing in the cotton market early today. It looked as though the advance of yesterday had left rather an easier technical position, and after an irregular opening prices broke rather sharply. Cables were better than due and July opened at an advance of 13 points, selling at 27.05c, or into new high ground for the movement, but later deliveries were unchanged to 14 points lower. July soon cased off to 26.44c, or 43 points net lower, while October broke to 25.55c, with active months gelerally showing net losses of 43 to 55 roints during the early trading.

Selling became more active later in the morning, with July breaking to 26.10c and October to 25.32c, or 76 to 77 points net lower, and in the case of July 95 points from the early high level. No fresh news feature was connected with the decline, but sellers were supposed to anticipate increased spot offerings with the appearance of better weather in the south. (Associated Press.)

NEW ORLEANS COTTON NEW ORLEANS COTTON.

New Orleans, May 2.—Cool weather in the belt caused a rise of 12 to 14 points on the strongest months around the opening of the cotton market here today, but moderately heavy selling appeared and a quick reaction resulted. At the end of the first half-hour prices were 34 to 38 points under yesterday's close.

The forecast of generally dry weather for the cotton region increased pressure to sell. In the trading up to noon the decline was widened to 69 to 76 points.

Early sellers turned profit-takers and the market made something of a recovery, standing at 1 o'clock 20 to 25 points under the close of yesterday.
